Career Objective

Aspiring AWS Cloud and DevOps engineer with a strong interest in software development, seeking an opportunity to apply my skills in cloud computing, automation, and scalable system development to build scalable and innovative solutions

Summary

B.E Electrical and Electronics Engineering student (2023–2027) with a strong foundation in AWS, Python, OOP, and full-stack web development. Experienced in building software, hardware, and hybrid projects using APIs, authentication, Firebase, ThingSpeak, and N8N automation. Proficient in N8N, VS Code, Firebase, Arduino IDE, and Twilio, with a focus on developing scalable real-world solutions.

Skills

- Cloud / DevOps: EC2, S3, IAM, CloudWatch, VPC, RDS, CI/CD Pipeline
 - Programming: Python, JavaScript, HTML, CSS, React
 - Databases: Firebase, MySQL, SQL
 - Tools: Git, GitHub, Docker, VS Code, Arduino IDE, ThingSpeak, Twilio, N8N
 - Other: R&D, Leadership, People Management, Communication, Teamwork, Linux
-

Projects

AI Based Emergency Response System (Personal Project)

10+ Projects

Developed a wireless accident detection system using sensors and LoRa to automatically send alerts and hospital pre-information for faster ambulance response.

Tech: ESP32, LoRa, GPS, Sensors, ThingSpeak, React, APIs, Ambulance Dashboard & Hospital System.

AI Smart Education System (Personal Project)

Developed an AI-based platform with exam monitoring, career roadmap generation, speech-to-notes, AI mentor session, and automated question generation.

Tech: Next.js, React, Firebase, Gemini API, JavaScript, APIs, Teachable Machine.

Custom E-Commerce Website for Textile Business (Client Project)

Developed a responsive custom e-commerce website with product catalog and admin dashboard.

Tech: Python, Flask, MySQL, CSS3, Bootstrap 5, JavaScript, Razorpay, Cloudfire.

Live link : <https://ps-tex-production.up.railway.app>

Smart Home Automation System (Department Project)

Developed an IoT-based smart home automation system that enables users to remotely control home appliances through a web interface and mobile application. Integrated real-time monitoring, device scheduling, and secure cloud connectivity.

Tech: ESP32, React, Vite, Firebase, JavaScript, HTML, CSS, Capacitor

INTERNSHIP

Electrical Maintenance Intern

Salem Steel Plant (SAIL), Salem

15 Days

- Completed a 15-day industrial internship in the Electrical Maintenance Department.
 - Gained practical exposure to **HRM** and **CRM** operations, industrial electrical maintenance, and safety procedures.
-

Education

Bachelor of Electrical and Electronics Engineering

Mahendra Engineering College (Autonomous)

August 2023 – August 2027

CGPA: 8.27/10

HSC (12th)

Government Higher Secondary School (GHSS)

August 2022 – August 2023

Percentage: 62.5%

Achievements & Certificates

- Best Innovation Award – Sengundar Engineering College (Hackathon)
- Participated in National Level Hackathons (KPR Institute of Technology, SRM Institute of Science and Technology)
- 2× Winner – Paper Presentation
- 2× Winner – Project Expo
- 1× Winner – Ideathon
- Participated in International Conference – Annapoorana Engineering College
- 3rd Prize – Photography (Non-Technical Event)
- 4th Prize – Inter-College Cricket Tournament (Captain, ₹4,000 Prize Money)
- 10+ Projects
